

Percent of Total IDD Population in County that Receives Waiver and Group Home Services

It is estimated that IDD prevalence is 1.58% of the population (Larson et al, 2001). Using this figure and 2015 U.S. Census-provided county population estimates, the county prevalence was determined.

This map shows the percent of the estimated people with IDD that receive Waiver Services in each county. On average, 28.3% of the estimated IDD population received Waiver or group home services. White denotes a more average county. Blue denotes a county with lower than average Waiver recipients. Red denotes higher than average Waiver recipients.

Larson, Lakin, Anderson, Kwak (2001). Demographic of persons with MR/DD/ living in their own homes or with family members: NHIS-D analysis. MR/DD Data Brief 3(2).
