Welcome and Today’s Agenda

• Welcome and Introductions
• All about BQIS
  • Who is BQIS?
  • Who is Liberty?
  • Data, Data and More Data!
  • Current Processes: Incident Reporting, Complaints, and Mortality Reviews
  • What’s Coming: Quality On-Site Provider Reviews, Training/TA, Provider Portal
• FSW and CIH Waiver Renewals
• Next Meeting: August 19th
All people are empowered to live, love, work, learn, play and pursue their dreams.
Who is BQIS?

- Bureau within DDRS.
- Monitors services provided to individuals with intellectual or developmental disabilities.
- Quality Assurance aspect (Incident Reporting, Complaints, Mortality) and Quality Improvement Aspect (NCI, Case Record Review, Quality On-Site Provider Review, Training/TA).
- DDRS Provider Services is also within BQIS.
BQIS Vision, Mission & Core Values

• **Mission:** To ensure quality supports are aligned with person-centered principles by leading strategic change that empowers people to live their good life.

• **Vision:** All Hoosiers are supported in navigating the opportunities and challenges they encounter in pursuit of their good life.

• **Values:** Integrity, Innovation, Purposeful, Strength-Based, Person-Centered
Important For vs. Important To
Important For vs. Important To

- We have made some strides to combine and balance what is important to AND important for an individual (PCISP).
- In the past our quality assurance initiatives have really focused on what is important FOR an individual with a high emphasis on health and safety.
- Important for is usually easier.
- We all know that people usually do not do what is important for them unless there is also a reason it is important to them and people with disabilities are no different.
Who is Liberty of Indiana?

Our Vision:
• Our vision is to give more and more people the freedom to succeed.

Our Mission:
• Our mission is to be a trustworthy and outcomes-driven partner that empowers customers to achieve their goals with flexible and intelligent healthcare services.
Areas of Expertise

- Behavioral Health
- Intellectual/Developmental Disabilities
- Aging & Disability Support Services
- Correctional Mental Health Services
- Sex Offender Management Services
CARF Accreditation

Liberty achieves and maintains “first-ever” accreditations by the Commission on Accreditation of Rehabilitation Facilities (CARF) for three new types of programs: forensic rehab, dual diagnosis, and sexual abuse treatment.

What it means:

CARF accreditation signals a service provider's commitment to continually improving services, encouraging feedback, and serving the community.

• We are committed to quality improvement, focusing on the unique needs of each person the provider serves, and monitoring the results of services.
• We continue to meet CARF quality standards.
Joint Commission Certified

We are among the first to earn The Joint Commission’s Gold Seal of Approval® for Health Care Staffing Services.

What it means:

Certification shows an organization’s commitment to continuous performance improvement, providing high quality patient care and reducing patients' risk of harm.

• We hire health care professionals that are dedicated to patient safety and care
NADD Accredited

Liberty operates the first program in North America to be accredited by the National Association for the Dually Diagnosed.

What it means:

The goal of program accreditation by NADD is to improve the quality and effectiveness of services provided to individuals with a dual diagnosis through the development of program standards and through promoting ongoing development and improvement of service delivery.

- We have quality services, programs, and supports for people with dual diagnosis and have “raised the bar”.

Source: BDDS DART Data System
Data should be utilized to guide program and policy decisions.

As the DDRS Advisory Council, what data would assist the council in guiding program and policy decisions for BDDS/BQIS? In what ways would that data provide guidance (e.g. how could it be used)?
BQIS Current Processes

- Incident reporting
- Complaints
- Mortality reviews
What is a reportable incident?

- Falls and injuries
- Missing Person
- Environmental Problem
- Death
- Peer to Peer aggression
- Medication Error
- Alleged criminal activity
- Neglect
- Abuse
- Exploitation
- Alleged criminal activity
Incident Report Life Cycle

1. Initial IR submitted and forwarded to applicable parties

2. BQIS reviews the IR, determines coding, and if follow-up is needed

3. If follow-up is required, BQIS sends an email to the residential provider, BDDS Service Coordinator, and Case manager, if applicable.

4. Until the IR is closed by BQIS, a follow-up report is to be submitted every 7 days until closed. The responsible party for submission of the follow-up report is: Case Manager for waiver; Residential provider for SGL, Stateline, and ICF/IDD facilities; and Service Coordinator for Nursing facilities.
Complaint Process

• Anyone one can file a complaint involving any individual receiving waiver services.

• A complaint can be submitted:
  • online
    (https://www.in.gov/fssa/ddrs/2635.htm);
  • By phone at (800) 545-7763;
  • By email BQIS.Help@fssa.in.gov; or
  • By mail.
Complaint Process

Initial Complaint
State Form 56584 (R / 12-18)
Family & Social Services Administration
Bureau of Developmental Disabilities Services

A Complaint is a report alleging a provider’s noncompliance with the requirements of Indiana Administrative Code or Division of Disability and Rehabilitative Services policies.

INSTRUCTIONS: Form may be completed electronically. By clicking “Save Record”, you are submitting your inquiry to the Bureau of Quality Improvement Services system for review and consideration.

If you provide an email, upon clicking Save at the top right of this page, you will receive an email notification confirming receipt of your Complaint. If you do not provide an email, you will receive a confirmation message. If you provide an email, you will be prompted that the form was saved and provided the option to print a copy of the form with the information that you entered.

Notes:
Mortality Review

• Each death of each individual with intellectual and developmental disabilities receiving services administered by DDRS undergoes review for the purpose of:
  • identifying trends,
  • developing recommendations, and
  • affecting improvement in both provider specific and system wide service delivery.

• A provider is also required to do an internal review is conducted by the provider.
Mortality Review

### OAR1-Community Setting

<table>
<thead>
<tr>

Mortality Process

The Mortality Review Committee (MRC) reviews and discusses information provided by the provider and prepared by Liberty following the death and develops recommendations to give the provider.
What’s New!

• Onsite-Quality Provider Review

• Training and Technical Assistance
LifeCourse Framework as a core value for transformational change

Core Belief: All people have the right to live, love, work, play and pursue their life aspirations just as others do in their community.

- Supporting positive life trajectories
- Preventing negative life events
Achieving the Desired Balance

Achieving the desired balance between person-centered quality and provider compliance:
Quality Onsite Provider Review

Focus on assuring:

• person-centered practices,
• adequate health and safety,
• compliance with waiver requirements,
• adequate and well-trained employees, and
• quality of life satisfaction of individuals served.
Quality On-Site Provider Tool Design

• The tool is broken out using the CMS HCBS Quality Framework. It is also aligned with the LifeCourse Framework. Using this format, will allow Indiana to receive data on both compliance with the waiver assurances and analyze areas of strength and needs for providers regarding the Charting the LifeCourse.
Quality Onsite Provider Review Process

• The Quality On Site Provider Review is a process which will assess a provider using pre-defined indicators to measure both quality and compliance. There are person-centered indicators and organizational indicators. Person centered indicators are designed to focus on what is happening with the person. Organizational indicators are designed to measure provider capacity, compliance, and quality assurance.
Building Provider Capacity through Provider Training
Training and Technical Assistance

Liberty will emphasize the provision of technical assistance and provider training when on site, looking for opportunities to support provider growth in the implementation of person-centered and integrated services.

Liberty will use multiple modalities for delivering training and resources, including the following:

- Technical assistance with individual providers via telephone and face-to-face consultations;
- Statewide in-person training events to include a minimum of six (6) statewide training events each year, with a minimum of two (2) being in-person trainings;
- Webinar training events;
- Videoconference meetings;
- Online video library/archived webinars;
- Website resource library;
- Informational pieces for mailing, dissemination, and website downloads.

Waiver Renewals

Cathy Robinson
Director, BDDS
Renewals - Implementation

- Family Supports Waiver & Community Integration and Habilitation Waiver
  - CCB Conversions being completed
  - Communications related to major changes (fact sheets, documentation standards, etc.)
    - Utilization and emphasis on new options/allowances
    - Examples
  - Day Habilitation
    - Auto-conversion
    - Effective 8/1
  - 40 Hour Rule & Ongoing Monitoring
Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

1. Major Changes

Describe any significant changes to the approved waiver that are being made in this renewal application:
